

UNIVERSITÀ DI PARMA

PhD Course in Drugs, Biomolecules and Health Products

Seminar schedule

Wednesday, January 17th 2018

h 15.00

Plesso di Farmacia

Aula C

Nicole Bozza

“Synthesis of NSC12 Analogues with Modification of the Propanediol Chain”

Miriam Girardini

“Different drug discovery approaches to fight *Mycobacterium tuberculosis* infection”

Joana Magalhães

“Design, Synthesis and Optimization of Inhibitors of Enzymes involved in the Sulfur assimilation pathway in Gram-negative Bacteria”

Giuseppe Marseglia

“Synthesis and Structure-Activity Relationships of Compounds Acting as FGF-Traps”
